Filling up vacancies of Sub Engineers and overseers that existed prior to the issue of G.O. of 25.2.1944.

Chief Engineer's no. C.178 d/ 2.11.1945.

D

In G.O. No. P.W. 5695-5716 d/ 25.2.44, laying down rules governing the Sub Service Public Works Service, a running grade of Rs 60-5-125-10-175 has been sanctioned for Engineer graduates. Before the question of revision of the rules was taken up, proposals for promotion of 16 overseers to Sub Engineer's grade were received from the Chief Engineer in February 1943 and April 1943 in two batches and they were kept up pending issue of revised rules. After the rules were issued, the proposals were resubmitted and sanction Com-unicated to the promotion of 16 overseers (80-5-12 to Sub Engineer's grade (Rs 125-10-175) in May 1944 from Feby 1943 and April 19 retrospectively, half the vacancies being filled by promotion accordin Seniority and the other half by promotion of Senior backward commun graduates, merit graduates also bee included in the percentage prescri for the respective communities.

M.S.N.

2. When the above set of arrangements were under consideration of Government, the C.E. submitted proposals for promotion of some more graduates from overseers to Sub Engineer's rank in further vacancies (under the old rules) that existed prior to the issue of the G.O. of 25-2-1944. These proposals were returned to the C.E. with certain observations, calling for further particulars.

3. In June 1945, an interpellation had come up before the R.A. Session, in reply to which the C.E. intimated that 9 vacancies of Sub Engineers and 39 of overseers existed under the old scale and ~~the~~ has submitted the following proposals.—

J

1. Mr. K. Narayanaswamy, B.E.
2. " Mr. N. Seshadri Setty, B.E. (B.C. candidate)

from overseers to Sub Engineer's grade

These are strictly in accordance with the principles enumerated in order No. P.W. 8416 of 24-4-1942. Serial nos. 1, 3, 5, 7 & 9 are in the order of Seniority. There being no I class I rank student among the Brahmins in the Overseer's cadre, the promotions were restricted to Senior Brahmin graduates only under the 50% intended for Seniors. These vacancies were in existence from different dates from 1943 to 10.2.1944. So as to maintain uniformity, the promotions may be given effect to from 15.2.1944. In the previous batches, they were sanctioned from the dates of Chief Engineer's letters submitting the proposals. In the present case, it may be from 15.2.1944, which will be a few days before the issue of revised rules (G.O. of 25.2.1944)

4. There were 39 vacancies of Overseers prior to the issue of revised rules. According to the rules then in force, they had to be filled up in the following manner:-

25% of vacancies for I class graduates
25% for Senior graduate Surveyors
25% for backward Community graduates
25% for Senior Suboverseers.

Including the 10 vacancies, released by the promotions proposed in para 3 supra the total no of vacancies of Overseers would be 49. Excluding 25% intended for non-graduates (Suboverseers), the numbers available for graduates would be

37. The C.E. has submitted the following nominations according to the above principles then in force:—

1. Mr. B. S. Krishnamurthy B.E. I class.
2. " K. S. Chandrasekharan B.E. Seniority
3. " S. Sampangiramiah, B.C. Backward Community

Sixteen of these vacancies were in existence from February 1943 and April 1943 in consequence of 16 overseers having been promoted as Sub Engineers retrospectively from those dates and the rest from different dates. Out of the 37 promotions detailed above, 12 may be from 17.2.43, 4 from 6.4.43 and the rest from a common date preferably 15.2.1944 as in the case of Sub Engineers' proposals in para 3 supra. These proposals require the concurrence of the Fl. Secy.

6. Government in their order dated 25-2-44 have laid down rules governing the Mysore Public Works Service and a running grade of Rs 60-5-125-10-175 has been sanctioned for the Engineering Graduates who are called Surveyors. Before these rules were passed and the grades of Overseers and Sub Engineers were abolished in the case of graduates, the Chief Engineer had sent up his proposals in February 1943 and April 1943 for the promotion of certain graduate ~~Sub-Overseers~~ Surveyors as Overseers and Sub Engineers. These proposals were duly sanctioned in May 1944 and were given effect to retrospectively from February 1943 and April 1943. When the above set of arrangements were under consideration of Government, the Chief Engineer submitted some further proposals for promoting some more graduates from the Overseers to the Sub Engineer's rank and these were returned to the Chief Engineer calling for further particulars. The number of vacancies as reported by the Chief Engineer were 9 of Sub Engineers and 39 of Overseers under the old scale i.e., before the 1944 Government Order was passed. The names ~~of~~ proposed against the 9 vacancies are detailed ~~in para~~ ~~2~~ 3 of notes and these are strictly in accordance with the principles enunciated in the Government order dated 24-4-1942 flagged R. There ~~are~~ were no First Class First Rank graduate students among ~~the~~ Brahmins in the Overseer's grade and the promotions proposed were therefore restricted to senior Brahmin graduates only. The vacancies of these Sub Engineers have been in existence from different dates from 1943 to 10-2-1944. The proposals of the Chief Engineer as now put up may be sanctioned and to maintain uniformity, the promotions may be ~~sanction~~ given effect to from 15-2-1944 which will be a few days before the issue of the new

Government order of 25-2-44. flagged.

7. Regarding the Chief Engineer's proposals for filling up the vacancies that existed in the grade of Overseers, 39 vacancies are reported to exist before the issue of the revised rules. These vacancies according to the rules then in force had to be filled up in the following way, namely 25 % for First Class Graduates, 25 % for senior graduate Surveyors, 25 % for Backward community graduates and 25% for senior Sub Overseers. The total number of vacancies to be filled up by graduates was 39 as reported by the Chief Engineer and there will be 10 more in addition due to the promotion as proposed above of 10 Overseers as Sub Engineers. The total number of vacancies to be filled up would thus be 49, out of which those that have to be reserved for non graduates i.e. Suboverseers at the rate of 25 % would be 12 and the rest viz 37 may be considered as available for graduate surveyors. The Chief Engineer for Irrigation has submitted the nominations as per details in para 4 of notes. These proposals are in strict accordance with the above principles and the rules then in force. The proposals may be sanctioned. Regarding the date from which they are to be given effect to, the vacancies were in existence from February 1943 and April 1943 ~~from~~ on different dates. Out of the 37 promotions detailed for approval, 12 may be from 17-2-43, 4 from 6-4-43 and the rest from a common date of 15-2-44 as in the case of the Sub Engineers proposals.

(and these have been settled by the C.E. himself)

8. I do not know if it is necessary to fill up these vacancies at this distance of time. The grades were reorganised & the benefit has accrued to the Service ~~[illegible]~~

9. The present proposals will create complications since once acting promotions are given the officers concerned will request that they may be fixed up in their pay in the new grade ~~and~~ the extra cost on this a/c has not been calculated but is quite likely to be a very respectable amount. There may be other complications also.

10. If however Govt should desire to considering of filling up these vacancies their existence & the period ~~of vacancies~~ would first have to be verified and the extra cost first calculated before taking any final decision. (A)

Letter No 6881 of 11.4.46 from the Chief Engineer, furnishing the allocation statem

12. The proposals of the Chief Engineer, which were referred back to him, were obtained from him in accordance with the Minut of the Minister of 26.9.45. (L.C. Question of June 45)

13. After the issue of G.O. of 25.2.44, promotio of 16 overseers to Sub Engineers' cadre was ordered from 17.2.43 and 6.4.43 in May 1944 and the Jt Secry then opined "the propos seem to be fair." In the ordinary course Sixteen surveyors should have been promoted as overseers by the C.E. who however does not seem to have ordered such promotions.

14. Proposals for promotions to Sub Engi cadre in further vacancies were receive early in ~~May~~ 1944 and further particulars were awaited from the C.E.

15. In regard to the verification of the vacancies, the C.E. states that the Comptr has called for Sub Division war distributio of Sub Engineers and Overseers and tha such information is not possible to be furnished now. While auditing the salaries of those who were promoted as Sub Engineers in May 1944 and as Overseers in October 1944, the C.E. furnished the allocation statements

to the Comptroller, who then admitted the promotions and the need for further particulars is not clear. It may be stated that Sub Engrs and Overseers borne on the permanent strength are on the provincial cadre and those sanctioned on temporary basis are for the respective works.

Both before and after the issue of the revised G.O. of 25-2-44, several projects such as irrigation, Reconditioning of Roads and Cement Concreting roads were sanctioned with additional executive establishments for their execution and the result is that the vacancies of Sub Engineers and Overseers had continued uninterruptedly and the C.E. had made as many as 50 promotions to Overseers' cadre in Septr 1944 subsequent to the G.O. The promotion of overseers to Sub Engrs and of Surveyors to Overseers would thus have continued and the individuals absorbed in the running grade without being affected.

16. A statement showing the difference of pay that would become payable on account of the present arrangements is put up. These promotions are in fairness due to them especially as one set of arrangements were ordered in May 1944 (after issue of G.O. of 25 2/44)

Serial No.

and consequential arrangements were for some reason or other not made by the C.E. In this view the difference in pay due to them is not in the nature of extra cost, the promotions being in the vacancies against sanctioned scale provided for in the sanctioned budget from time to time. On the other hand, this has resulted in some savings in the fixed rates of C.A. and monthly T.A for the past over two years, as these cannot draw enhanced rates of C.A. with retrospective effect but can only have existing old rates of C.A. as Surveyors and Overseers even though their promotion to the next higher grade may be announced. Even if the promotions are approved, they can continue to have the same old rates of C.A. under the revised running grade instead of the enhanced rates of C.A. attached to the old cadres of Overseers and Sub Engineers In this way, the parties are subjected to disadvantage and would continue to feel the effect thereof until they get into Asstt Engineers' cadre.

15/4/46

(8) In the normal course these promotions should have been sanctioned ~~back before the~~ earlier than 25-2-44 the date of

G.O. sanctioning the reorganisation of the department. In fact, the proposals were received from the chief engineer once and returned for giving further particulars. The Comptroller now wants the distribution of the permanent scale of subengineers and overseers as it stood on 25-2-44 (Division and Sub division war). The allocation stts sent by the chief Engineer on ~~[illegible]~~ 17-8-44 and on 12-1-45 giving all the particulars, were accepted by the Comptroller and promotions ordered subsequently have been admitted in audit. ~~[illegible]~~ The need ~~for~~ a distribution statement cannot be understood.

19. The stt. appended gives the amounts due to individuals and the dates from which promotions are due. Apart from the loss of pay, they would lose their ranks if these promotions are not sanctioned. Under these circumstances the proposals of the C.E.I. for granting these promotions may be sanctioned.

Sir,

Re: Filling up the vacancies of Sub Engineers and Overseers that existed prior to issue of the G.O. dated 25-2-1944.

With reference to your D.O. letter No.P.W.2034/Est.72-45-3 dated 1-10-1945 calling for the submission of proposals for filling up the vacancies of 9 Sub Engineers and 39 Overseers in accordance with the rules that were in force prior to 25th February 1944, I have the honor to state that the following graduate overseers and surveyors will be eligible for promotion as Sub Engineers and overseers in the above vacancies in accordance with the principles laid down in G.O. No.P.W.8416 dated 24-4-1942.

Overseers to be promoted as Sub Engineers - 9 vacancies. (Temporary)

1. Mr.K.Narayanaswamy - seniority;
2. " M.N.Seshadri Setty - backward community;
3. " M.Narayana Rao - seniority;
4. " S.Krishna Raju - B.C.
5. " C. Subba Rao - seniority;
6. " M.B.Rajappa - B.C.
7. " M.S.Ramakrishna - seniority;
8. " B.P.Gopalakrishna - B.C. -- O.O.D. in College of Engineering.
9. " M.V.T.Iyengar - seniority;
10. " H.K.Panditharadhya - I class I rank.

There being no I class I rank candidate among the overseers, the senior-most overseer is proposed in that place.

Surveyors to be promoted as Overseers - 39 vacancies - 10 vacancies released by promotion of overseers as Sub Engineers = 49. (Temporary).

25% for I class graduates, 25% for senior surveyors, 25% for backward community graduates and 25% for senior sub-overseers.

Messrs.

With reference to your letter No. P.W. 5400 dated 12-2-1946, forwarding a copy of your letter No. 5399 of even date addressed to the Comptroller of Mysore, Bangalore, regarding the above subject, I have the honour to forward herewith a copy of letter No. 342/WAD. dated 14-3-1946 received from the Comptroller of Mysore.

2. The Comptroller requests that the distribution of the Permanent sanctioned scale of Sub Engineers and Overseers as it stood on 25-2-1944 (Division and Sub Division-war) may be intimated with the necessary Government Orders. In this connection, I wish to mention that allocation statements in respect of promotions ordered from Overseers to Sub Engineers in Government Order No. P.W. 8067-69 dated 19-5-1944 and from Suboverseers to Overseers ordered in this office No. 1520-29 dated 28-9-1944 were prepared in the same lines as was done now and forwarded to the Comptroller in this office No. 837/E dated 17-8-1944 and No. 4262-67 dated 12-1-1945 respectively. The same have been accepted by the Comptroller and promotions ordered admitted in audit. For verification of the allocation statement forwarded now, the Comptroller requests that the distribution of the sanctioned scale of Sub Engineers and Overseers among the several Divisions and Sub Divisions may be forwarded. As the Superintending Engineers of Circles are empowered to distribute the permanent strength of the Executive establishment according to the exigencies of service irrespec
